

Ink Filling Manual for Epson Cartridges

1) Preparation

Pull out the rubber plug from Ink filling hole;

Use 60ml syringe to draw about 30ml ink

2) Refilling

Insert the syringe into Ink filling hole; Please make sure that the syringe fits well the Ink filling hole; Otherwise, you couldn't vacuum the cartridge.

Pull up the plunger for about 20ml to vacuum the cartridge;

1.

Then loose the plunger. The air pressure will push Ink flow into the cartridge naturally.

If you couldn't fill the cartridge to full level in one time, please repeat these steps for about two or three times.

3) Last step

Please seal the refilling hole with plugs and open the air hole when you print.
